

# R test

Lee Worden

## Report

Trying to reproduce a problem reported by Jake.

```
> # Scripts: manual.R
>
> source("input.R")
> print(x)
[1] 3
>
>
```

I don't see any evidence for the problem.

```
source("input.R")
print(x)
```

```
x <- 3
```

## Alternative

Sourcing files is not recommended, anyway.

```
> # Global Environment: input.RData
>
> # Scripts: auto.R
>
> print(x)
[1] 3
>
>
>
```

```
> # Scripts: input.R auto.R
>
> x <- 3
> print(x)
[1] 3
>
>
>
```

```
auto.seq.Rout: input.Rout auto.R
      $(run-R)

auto.Rout: input.R auto.R
      $(run-R)
```

```
print(x)
```
